Technical Skills

Front End Development: Angular, TypeScript, JavaScript, Bootstrap, RxJS, Tailwind CSS, SCSS, CSS, HTML
Frameworks: Familiar with React; Extensive experience with Angular
Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD
Other: Git, CI/CD Pipelines, Agile, Scrum, Unit Testing (Jasmine), Responsive Design

Work Experience

Software Engineer - Product
Impartner Software | South Jordan, UT | August 2022 – Present
Tech Stack: Angular, Typescript, Node.js, Tailwind CSS, Figma, Git, CI/CD Pipelines, Agile, Unit Testing

- Developed customer-facing user interfaces using Angular, emphasizing clean and maintainable code adhering to team coding standards.

- Conducted code reviews and contributed to coding standards to ensure code quality and consistency within the team.

- Led the development of key features, promoting best practices in front-end development.

- Developed unit tests to ensure quality code, focusing on practical test scenarios rather than simple line coverage metrics.

Software Engineer - Customer Implementation
Impartner Software | South Jordan, UT | May 2020 – August 2022
Tech Stack: Angular, Typescript, Javascript, C#, ASP.NET, Figma, Scrum

- Worked on implementing responsive web pages using JavaScript and CSS, focusing on creating user-friendly and visually appealing interfaces.

- Communicated effectively with cross-functional teams to articulate implementation details and collaborate on feature development.

- Served as a subject matter expert for technical aspects during customer calls, offering tailored solutions based on product capabilities.

- Analyzed existing processes to identify areas for improvement, implementing changes that optimized resource utilization and project timelines.

Solutions Architect
Impartner Software | South Jordan, UT | October 2018 – April 2020
Tech Stack: C#, ASP.NET, Javascript, Adobe Photoshop, Adobe Illustrator, Adobe XD, Scrum

- Identified custom development needs by listening to client requirements and proposing tailored software solutions.

- Worked closely with project management and development teams to monitor progress and ensure project alignment with set goals.

- Oversaw all aspects of design and development, providing innovative design solutions as needed.

- Conducted technical demonstrations to clients, assisting them in making informed decisions on implementing solutions.

- Enhanced product knowledge and skills in C# and JavaScript, further contributing to development efforts.

Investment Data Analyst
Vanguard | Scottsdale, AZ | July 2016 – September 2018

- Leveraged data management skills with Microsoft Excel and SQL databases to compile comprehensive investment reports.

- Monitored market trends and economic changes using tools like Bloomberg's terminal and S&P, supporting data-driven decision-making.

- Collaborated with traders and portfolio managers to provide timely and accurate investment data analysis.

RCAS Processing Associate
Vanguard | Scottsdale, AZ | June 2013 – July 2016

- Managed processing of work requests with attention to detail, maintaining high standards of service delivery and data accuracy.

- Actively participated in the Volunteer Income Tax Assistance (VITA) program, assisting low-income individuals with tax filing.

Projects

Fitness Tracker
Angular, TypeScript, RxJS, Angular Material, HTML, CSS, Firebase, Figma

- Built a full-stack application enabling users to log in and track their exercises, using Firebase for authentication and data storage.

- Redesigned the application layout from Angular Material standard design to a custom interface, enhancing the overall user experience.

Recipe Book
Angular, Typescript, RxJS, Bootstrap, HTML, CSS, Firebase, Figma

- Developed an application for users to save recipes and create shopping lists, integrating Firebase for data storage and user authentication.

- Enhanced the design beyond Bootstrap's standard, creating a unique and user-friendly interface.

Education

Bachelor of Science in Business Administration
Northern Arizona University | Flagstaff, AZ | August 2010 – June 2013
